DETAILED ACTION

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no antecedent basis for "with rack gear", "the wrench body", "the worm gear shaft" and "the threads".

There is also a "pin" and "an inserted pin" claimed, however there is only one pin disclosed, thus it appears that the same element is twice claimed.

3. It appears that none of the prior art shows applicant's invention and upon clarification of the above noted indefiniteness, claim 1 should be allowable.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James G. Smith whose telephone number is 571-272-4496. The examiner can normally be reached on M-Th (7:05- 4:35) Fri. off.
